

**TABLE OF CONTENTS**

<b>CONTENTS</b>		Page
<b>0.0 EXECUTIVE &amp; NON TECHNICAL SUMMARY</b>		
<b>1.0 INTRODUCTION</b>		
1.1 Development of Natural Gas Consumption		1.2
1.2 Environmental Considerations of Natural Gas		1.3
1.3 Objectives		1.3
1.4 Work		1.3
<b>2.0 ENVIRONMENTAL LEGISLATION</b>		
2.1 Introduction		2.1
2.2 Administrative Responsibilities of Egyptian Agencies		2.1
2.2.1 Egyptian Environmental Affairs Agency (EEAA)		2.2
2.2.2. Egyptian Natural Gas Holding Company (EGAS)		2.3
2.2.3 Governorates		2.3
2.3 Law No. 4 of 1994 and its Executive Regulations		2.4
2.3.1 Law No. 4 of 1994		2.4
2.3.2 Prime Minister's Decree No. 338 of the year 1995		2.5
2.3.3 Standards of Anticipated Impacts as specified in ER		2.7
2.3.3.1 Atmospheric Emissions and Air Quality		2.8
2.3.3.2 Noise Levels		2.9
2.3.3.3 Waste Management		2.11
2.3.3.4 Water Pollution		2.12
2.4 EEAA/ EGPC Guidelines for EIA		2.13
2.5 The Appeal System		2.14
2.6. Permits Required For the Construction and Operation of the Pipelines		2.14
2.7. The European Commission Guidelines		2.15
<b>3.0 PROJECT DESCRIPTION</b>		
3.1 Introduction		3.1
3.2. Design		3.2
3.3. Codes And Standards		3.2
3.4. Pipeline Specification		3.3
3.5. Gas Analysis & Volumetric Rates		3.3
3.6. Time Schedule		3.4
3.7. Number of Casuals, Labours and Engineers Working in The Project		3.5
3.8. Types & Number of Equipments Used During Construction		3.6
3.9. Construction		3.7
3.9.1. R.O.W.		3.8
3.9.2. Materials and Equipment Storage		3.9

**TABLE OF CONTENTS**

<b>CONTENTS</b>		<b>Page</b>
3.9.3 Trenching and Excavation Activities		3.9
3.9.4. Pipeline Laying Technique		3.10
3.9.5 Ditching		3.11
3.9.6 Lowering and Backfilling of a Pipeline		3.12
3.9.7 Pigging Methods		3.14
3.9.8. Cleaning Flushing and Gauging		3.14
3.9.9. Hydrostatic Testing		3.14
3.9.10. Dewatering		3.17
3.9.11 Magnetic Cleaning and Geometric Pigging		3.17
3.9.12 Drying and Commissioning		3.18
3.9.13. Pipeline Crossings		3.18
3.9.13.1. General		3.18
3.9.13.2. Cased Crossings		3.19
3.9.13.3. Underground Crossings		3.20
3.9.13.4 Drainage and Canal Crossings		3.21
3.9.13.5 Navigational Canal Crossings		3.22
3.9.14 Corrosion Control		3.23
3.9.15 Reinstatement of the right of way and site		3.23
3.9.16 Rupture protection technique		3.23
3.9.16.1 General		3.24
3.9.16.2 Underground		3.24
3.9.16.3 Drainage and Small Canals < 4m Width		3.24
3.9.16.4 Drainage and Canals > 4m Width		3.24
3.9.16.5 Navigation Canals and Rivers Crossings		3.24
3.9.16.6 Rail Sleeve		3.24
3.9.17 Number of Lines at Each Crossing		3.25
3.9.18. Cover of Pipeline		3.25
3.9.18.1 Roads		3.25
3.9.18.2 Drainage and Small Canals < 4m Width		3.25
3.9.18.3 Drainage and Canals > 4m Width		3.25
3.9.18.4 Navigation Canals and Rivers Crossings		3.25
3.9.18.5 Rail Sleeve		3.25
3.9.19. Water Bodies Crossing Methodology		3.26
3.9.20. Methods of pipe testing		3.31
3.9.20.1 Welding and weld inspection		3.31
3.9.20.2 Coating		3.31
3.9.20.3 Painting (valve rooms)		3.31
3.9.21 Impact protection		3.32
3.9.22 Specifications for cathodic protection		3.32
3.9.22.1. Design		3.32
3.9.22.2 Cabling		3.32
3.9.22.3 Location and spacing		3.32
3.9.22.4 Reference numbers		3.33
3.10. Operation		3.34
3.10.1 Pipeline patrolling		3.34

## TABLE OF CONTENTS

<b>CONTENTS</b>		Page
3.10.2 Leakage survey		3.34
3.10.3. Frequency of Patrol		3.35
3.10.4. Records & operating manuals		3.36
3.10.5. Valve Rooms		3.37
<b>4.0 EXISTING ENVIRONMENT</b>		
4.1 Introduction		4.1
4.2 Soil Geomorphology		4.1
4.2.1 Morphology of the El-Tina plain and the South El-Kantara Shark soils.		4.2
4.2.2 Morphology of the El-Bardawil, thr Bair El-Abd and the Rabaa soils.		4.4
4.2.3 Sand Sheet And Sand Dunes		4.5
4.3. Climatic data		4.8
4.4 Physical and Biological Environment		4.13
4.5. Historic Environment and Cultural Heritage		4.14
4.6. Socio-Economic Environment		4.15
<b>5.0 ALTERNATIVES</b>		
5.1 Horizontal Directional Drilling (HDD)		5.1
5.2 The "no action" Alternative		5.2
<b>6.0 ENVIRONMENTAL IMPACTS</b>		
6.1 Introduction		6.1
6.2 Methodology		6.1
6.3. Air Emission		6.3
6.4. Dust		6.5
6.5. Noise and Vibration		6.9
6.6. Soils		6.13
6.7 Ground Water Sources		6.17
6.8. Surface Water		6.18
6.9. Ecological Impacts		6.20
6.10. Landscape And Visual Impacts		6.22
6.11. Archaeology And Cultural Heritage		6.23
6.12. Erosion Control & Site Restoration		6.23
6.13. Socio-Economic Impacts		6.24
6.13.1. Economics & Employment		6.24
6.13.2. Land Use Effects		6.25
6.14. Waste		6.26
6.15. Traffic		6.27

**TABLE OF CONTENTS**

<b>CONTENTS</b>		Page
<b>7.0 ENVIRONMENTAL MITIGATION MEASURES</b>		
7.1	Introduction	7.1
7.2.	Air Emissions	7.1
7.3.	Dust	7.2
7.4.	Noise and Vibration	7.3
7.5.	Soils	7.3
7.6.	Groundwater Sources	7.4
7.7.	Surface Water	7.4
7.8.	Ecological Impacts	7.5
7.9.	Landscape and Visual Impacts	7.5
7.10.	Archaeology and Cultural Heritage	7.6
7.11.	Erosion Control & Site Restoration	7.6
7.12.	Socio-Economic Impacts	7.6
7.12.1.	Land use Effects	7.6
7.13.	Waste	7.7
7.14.	Traffic	7.8
7.15.	Emergency Response Plan	7.8
7.15.1.	Objectives Of The Emergency Plan	7.8
7.15.2.	A Fast Effective Response	7.9
7.15.3.	During Construction Phase	7.9
7.15.4	During Operation Phase	7.9
7.16	Reinstatement of Row & Site	7.10
7.17.	Employee Health and Safety	7.11
7.18.	Occupational Hygiene	7.13
7.18.1	Dust Exposure	7.13
7.18.2	Noise	7.15
7.18.3	Heat	7.15
<b>8.0 MONITORING PLAN</b>		
8.1	Introduction	8.1
8.2	During Construction	8.1
8.3	During Operation	8.2
8.3.1	Pipeline Integrity Monitoring	8.3
8.3.2.	Prevention of Third-Party Interference	8.3
8.3.3	Record Keeping	8.4
<b>9.0 CONCLUSIONS</b>		
<b>10.0 PUBLIC CONSULTATION PROCESS</b>
