## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name:	GRUPPO SACMI R&D II
Project Number:	2016-0278
Country:	Italy
Project Description:	The project concerned the promoter's investment in Research, Development and Innovation (RDI) in the field of ceramic, beverage, closures machinery and automation.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following key Environmental and Social outcomes at Project Completion.**

RDI activities in the field of ceramic, beverage, closures machinery and automation do not fall under Annex I or Annex II of the EIA Directive 2014/52/EU amending Directive 2011/92/EU. Hence, the project has not been subject to the EIA directive.

The financed activities have been carried out mainly in the promoter's headquarters and R&D centre located in Imola (in the province of Bologna, Italy) in the period 2016 – 1H 2020.

The project has supported the promoter in developing better performing machinery for the worldwide market, thus contributing, in part, to set the benchmark in terms of environmental performance also in emerging markets.

No significant environment or social issues were noted during the project's implementation.

### Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter during the project implementation that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
