Environmental and Social Completion Sheet (ESCS)¹

Overview

Project Name:	Ausbau Salzburger Landskliniken
Project Number:	20110011
Country:	Austria
Project Description:	The project supports the structural and organisational improvement of the Landeskrankenhaus Salzburg, a tertiary care university hospital with over 1 100 beds, in the city of Salzburg, Austria.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

All the construction work on this project takes place within an approved Urban Development Plan and therefore no EIA is required.

The project entails significant social and economic benefits to the region, including to its health strategy and its ability to provide state of the art healthcare to its population with better models of service delivery. The hospital is also a major regional employer.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter, site visits by the EIB team and inputs provided by Lenders' Supervisors and others during Construction that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
