Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	<i>CO-INVESTMENT MIROVA WIND POLAND</i>
Project Number:	<i>2020-0091</i>
Country:	<i>Poland</i>
Project Description:	<i>Equity co-investment in 3 onshore wind farms (132MW) in Poland</i>

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

Through this operation, the Bank provided funding to Mirova Renewables Co-Investment 2 SLP that enabled the construction and operation of 3 onshore wind farms in Poland. No risks or incidents were reported on any of the projects. The due diligence undertaken by the Bank on the existing portfolio included reviewing any environmental and social risks at the allocation stage. No significant environment or social issues were noted. A comprehensive EIA has been conducted. The project generates positive environmental impacts, notably by reducing GHG emissions.

Summary opinion of Environmental and Social aspects at completion:

The EIB is of the opinion, based on reports from the promoter and the fund manager during construction, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
