## Environmental and Social Completion Sheet (ESCS)<sup>1</sup>

### Overview

Project Name: AEP NIAMEY  
 Project Number: 2013-0304  
 Country: NIGER  
 Project Description: Projet d'alimentation en eau potable de la ville de Niamey, comprenant une station de traitement (Goudel IV) ainsi qu'un réseau d'adduction et de distribution.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

A project ESIA was prepared in line with the Bank's E&S standards. The Ministry of Environment, following the positive conclusion of the Environmental and Impact Assessment Evaluation Office of Niger (BEEEI), issued the project environmental certificate in July 2016.

No major environmental or social issues were identified at appraisal stage, confirmed by the ESIA at a later stage. No relevant information regarding environmental and social issues was reported by the promoter during the phase of works. The project was implemented as required by the mitigation measures identified by the ESMP.

The conditions and undertakings included in the finance contract were respected:

- The Bank received for publication the ESIA with the environmental certificate prior to the start of the works.
- The ESMP was carried out to the satisfaction of the Bank.
- The implementation of the project respected the requirements of the ESMP.

### Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter, site visits by the EIB team and inputs provided by consultancy firms during construction, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
