Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	MACHINE VISION (EGFF)
Project Number:	2018-0816
Country:	France
Project Description:	The project concerns the company's development of technology for imaging sensors that allows extremely fast and reliable reading and interpretation of scenes in industrial, consumer and automotive applications. The investments include the relevant RDI activities and capital expenditures for the development activities.

Summary of Environmental and Social Assessment at Completion

The project has contributed to the development of imaging sensor technologies, as well as related applications. All activities took place at Promoter's existing facilities. The capital R&D investments concerned primarily equipment and tools that do not require any environmental assessment or authorisations.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion, based on reports from the promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
