## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name:	SKB NZEB
Project Number:	20170068
Country:	Sweden
Project Description:	The project consists of the development of four residential building complexes supporting the Swedish strategy for the development of nearly zero energy building (NZEB)

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following key Environmental and Social outcomes at Project Completion.**

The supported investments comprised the construction of four residential complexes (NZEBs) in line with the near-zero energy building performance levels in Sweden. No significant environmental or social issues were noted. These investments led to a reduction of the energy consumption of the buildings when compared to the minimum mandatory requirements in the Swedish Building code and subsequent reduction of CO<sub>2</sub> emissions.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion based on reports from the promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
