Environmental and Social Completion Sheet (ESCS)¹

Overview

Project Name:	ADESTIA - EFFICACITE ENERGETIQUE LOGEMENT SOCIAL
Project Number:	20160290
Country:	France
Project Description:	The project has supported a programme for the energy efficiency refurbishment of 23500 social housing units.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The supported investments comprised the renovation of approximately 23,500 social housing units with the main purpose of improving the energy performance of the buildings.

The objectives of the Project were achieved with minimum changes compared to the original scope. None of the schemes was screened in by the Competent Authorities and required an EIA. No significant environmental or social issues were noted. These investments led to a reduction of the energy consumption of the buildings and subsequent reduction of CO2 emissions.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the Promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
