## Environmental and Social Completion Sheet (ESCS)<sup>1</sup>

### Overview

Project Name:	<i>M30 MOTORWAY MISKOLC – SK BORDER (FL 2015 0006)</i>
Project Number:	<i>2017 0993</i>
Country:	<i>Hungary</i>
Project Description:	Construction of a 56.75 km long 2x2 motorway between Miskolc and Tornósnémeti at the border with Slovakia

### Summary of Environmental and Social Assessment at Completion

This was an allocation under a framework loan appraised a few months before completion and when the motorway was already open to traffic. No significant residual environmental impact was then reported and this was confirmed at completion.

The project was subject to environmental impact assessment (EIA). Appropriate avoidance, mitigation and compensation measures were implemented as planned, including fauna/flora protection, noise reduction measures, landscaping and reforestation as well as water protection measures.

#### Summary opinion of Environmental and Social aspects at completion:

In this context, EIB is of the opinion based on reports from the promote, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
