Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	DYEMANSION (EGF VD)
Project Number:	2020-0876
Country:	Germany
Project Description:	DyeMansion is a German based company operating in the field of 3D printing / additive manufacturing. More specifically, it develops and produces post-processing equipment for finishing (cleaning, surfacing, and colouring) that turns 3D printed raw parts into finished products.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The financed investments included the Promoter's operative and capital expenditure for the development and commercialisation of improved products able to cope with an increased number of materials and that allow the integration with different additive manufacturing production lines in terms of capacity, speed, connectivity, digitalisation, and automation.

The financed activities were not covered by the EIA Directive, being not listed in any of the annexes of the Directive 2011/92/EU amended by Directive 2014/52/EU.

The Project is aligned with the Paris Agreement framework and in line with EIB's Climate Bank Roadmap (CBR) as it concerned eligible investments in Research, Development and Innovation, and manufacturing not mentioned in the excluded sections of the roadmap.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion, based on reports from the Promoter during the implementation, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
