## Environmental and Social Completion Sheet (ESCS)<sup>1</sup>

### Overview

Project Name: CompuGroup Medical Software RDI  
 Project Number: 2021-0757  
 Country: Germany, Austria, Sweden, Romania, Italy and Regional EU Countries  
 Project Description: The project relates to the promoter's expenditures in Research, Development and Innovation targeting healthcare system digitalisation, and in particular pertain to software for digitalisation in medical care, individual health management and interoperability focused on improving the user experience and developing state-of-the-art technologies in the field, including improving cyber-security for medical data.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

The project concerned investments in research and development activities carried out by the Promoter and its partners in existing facilities without changing their already authorised scope. The project contributed to advancing the digitalisation of medical records in Europe and the Company's integration of the latest digital tools and technologies into the Company's offerings, including machine learning, artificial intelligence, and cybersecurity.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion based on reports from the promote that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
