Environmental and Social Completion Sheet (ESCS)

Overview

Project Name: RAIN RURAL BROADBAND
Project Number: 2010-0412
Country: Lithuania
Project Description: The project relates to the roll-out of fibre-based broadband telecommunication network in Lithuania to provide the infrastructure needed to extend the reach of broadband services mainly to rural areas of the country.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

The project will provide connection points in educational institutions, official institutions, libraries and public internet centers. In addition, the project will also provide wholesale connectivity to commercial operators on an open access principle for the connection of mobile-communication towers and fixed-communication network nodes.

No significant environment or social issues were noted.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter during Construction that the Project has been implemented (in line with EIB Environmental and Social Standards, applicable at the time of appraisal).
